## About cocoa

### Origin

The genus Theobroma originated millions of years ago in South America, to the east of the Andes. Theobroma has been divided into twenty-two species of which T. cacao is the most widely known. It is the Maya who have provided tangible evidence of cacao as a domesticated crop. Archaeological evidenc...

---

### Planting

Cocoa products are made from cocoa beans, the kernels of the cocoa fruit. These fruits sprout directly from the trunk and the thicker branches of the cocoa tree. In the wild these trees can grow to a height of fifteen metres. In cultivated forms they are kept shorter, up to four or five metres, in...

---

### Apply

Beverage candy category Alkalized cocoa powder can be made of foam beverage, by adding sugar, milk more delicious.
